

CLAIMS

What is claimed and desired to be secured by Letters Patent is as follows:

1. A method of decorating a model car comprising the steps of:
 - providing a sheet of decorating material which holds a transferable image which is of a size to envelope said car and overlap the edge;
 - applying said sheet to said car;
 - transferring said image to said car; and
 - trimming excess material away whereby the remaining material conforms to the configuration of said car.
2. A method as set forth in claim 1, wherein said transferring step comprises a wet transfer process.
3. A method as set forth in claim 2, wherein said step of providing a sheet of decorating material includes providing a sheet having an opaque background.
4. A method as set forth in claim 3, wherein said opaque background comprises a pigmented adhesive.
5. A method as set forth in claim 1, wherein said sheet is characterized by a nonrepetitive pattern.
6. A method as set forth in claim 5, wherein said applying step comprises cutting said sheet into multiple pieces and applying the pieces individually.
7. A method as set forth in claim 1, wherein said sheet is applied to the exterior of said car.
8. A sheet of decorating material holding a transferable design and adapted to be applied to substantially the full body of a model racing car, said sheet comprising:
 - a first film having a design printed on it and sized to cover a model racing car;
 - an opaque layer covering one side of said film, said opaque layer including a layer of adhesive;
 - an adhesive layer adjacent said opaque layer;
 - a release sheet covering said adhesive on said opaque layer;
 - a water absorbent sheet covering the side of said first film opposite said adhesive layer; said water absorbent sheet having a water soluble second adhesive layer adhered to said film.

9. The invention of claim 8, wherein said opaque layer is incorporated into said adhesive layer to form a pigmented adhesive.
10. The invention of claim 8, wherein said design is a nonrepetitive pattern.
